

Installation Manual Mostec Programming Adapter

System requirements

Windows 95/98/NT4.0/2000/XP/Vista/7® Operating System
Unused USB Port

Non-liability

The company Mostec AG developed and tested the software Mpro with largest care. Mostec is not responsible for any damages whatsoever, including loss of information, interruption of business, personal injury and/or any damage or consequential damage without limitation, incurred before, during or after the use of our products.

General references

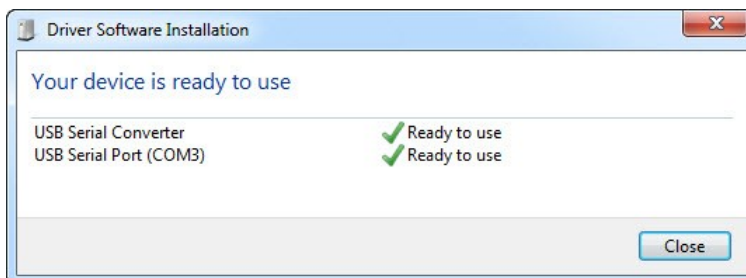

Close all open programs, before beginning the installation. For installation under Windows NT/2000/XP/Vista/7®, administrator rights are necessary. The newest software may be downloaded free of charge at www.mostec.ch. Mostec also supplies the program on CD-ROM.

Mostec Programmier Adapter Installation

1. Do not connect the USB programming adapter!
2. USB Treiber Installation
Start the file setupUSBdriver.exe from CD-ROM.
The newest software may be downloaded any time and free of charge at www.mostec.ch.
→ The driver files will be installed automatically to your Windows Operating System.

3. Connect the USB programming adapter to an unused USB port.
→ Windows Operating System detects now the new hardware automatically.

Installation Manual Mostec Programming Adapter

4. Check USB Port

Under "Start → Control Panel → System and Security → System → Device Manager" the device manager shows the new installed COM-Port. The COM-Port number must be set in the Mpro software. Check "Installation manual Mpro" for more information.
